THEODORE E. A. FULLER,
Town Clerk.

WARRANT FOR ANNUAL STATE ELECTION.

COMMONWEALTH OF MASSACHUSETTS.

Norfolk, Ss.

To E. Wright Sargent or either of the Constables of the
Town of Plainville:

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of the said Town of Plainville to meet in the Town Hall in said Plainville, on Tuesday, November 2, 1915, at Five forty-five o'clock A. M., it being the Tuesday next after the first Monday in said month, then and there to give in their votes.

For a Governor of the Commonwealth, for Lieutenant Governor of the Commonwealth, for a Secretary of the Commonwealth, for a Treasurer and Receiver General of the Commonwealth, for an Auditor of the Commonwealth, for an Attorney-General of the Commonwealth, for a Councillor for the Second District, for a Senator from the Second Norfolk District, for a Representative in the General Court for the 12th Norfolk District, for an Associate County Commissioner to fill vacancy, for a County Commissioner for Norfolk County, for a Treasurer for Norfolk County, for a sheriff for Norfolk County, and for nine Commissioners to apportion Suffolk County into Representative Districts. And also to vote "Yes" or "No" on the following questions:

1. Shall the Town accept Chapter 129, Resolves of 1915, entitled "Resolve to provide for submitting to the people the article of amendment of the constitution, empowering the general court to authorize the taking of land to relieve congestion of population and to provide homes for citizens."

2. Shall the Town accept Chapter 130, Resolves of 1915, entitled "Resolve to provide for submitting to the people the article of amendment of the constitution, striking the word 'male' from the qualification of voters."

3. Shall the Town accept Chapter 225, General Acts of 1915, entitled "An Act to provide for the establishment and maintenance of an independent agricultural school in the county of Norfolk."

4. Shall the Town accept Chapter 140, Resolves of 1915, entitled "Resolve to provide for submitting to the people the Article of Amendment of the Constitution relative to the authority of the General Court to impose taxes."

All on one ballot.

The polls will be open at six o'clock A. M. and may be closed at four o'clock P. M., and you are directed to serve the warrant, by posting up attested copies thereof in at least six public places in said Town at least seven days before the time of said meeting.

Hereof fail not and make due return of this Warrant with your doing thereon to the Town Clerk at or before the time of said meeting.

Given under our hands, and the seal of said Town of Plainville this Fourteenth day of October, in the year

One Thousand Nine Hundred and Fifteen.

(Signed)

FRED W. NORTHUP,
SYLVESTER SMITH,
EARL B. THOMPSON,
Selectmen of Plainville.

OFFICER'S RETURN OF WARRANT.

Norfolk, Ss.

Plainville, October 23, 1915.

This certifies that I have served the above Warrant, by posting ten attested copies in ten public places in said Town of Plainville.

(Signed)

E. WRIGHT SARGENT,
Constable of Plainville.

COMMONWEALTH OF MASSACHUSETTS.

Norfolk, Ss.

Plainville, November 1, 1915.

Then personally appeared the above named E. Wright Sargent, Constable, and made oath that the foregoing statement by him subscribed is true, before me,

THEODORE E. A. FULLER,
Town Clerk and Justice of Peace.

ANNUAL STATE ELECTION, NOV. 2, 1915.

Report of Water Commissioners

The report of the doings of the Water Department for the year 1915 can be summed up in the few words of Superintendent H. B. Thompson as follows:

January 1, 1916.

To the Board of Water Commissioners:

Gentlemen: The following report is submitted for the year 1915:

Eight new services installed.

Four services shut off.

One service renewed.

Net gain of five services for 1915.

The following repairs have been made:

Leak on South Street.

Repaired the water fountain.

At present the Water Works has one meter and sufficient pipe to meet present demands.

Respectfully submitted,

HARRY B. THOMPSON,
Superintendent of Water Works.

In addition we have to say that the water has been examined each month by the State Board of Health and passed without a word.

In the matter of accounts we must record the fact that during the past year two parties have moved out of town without paying their accounts. Mr. Herrick, owing the town a \$5.00 water rate and the 5 per cent. guar-

antee amounting to \$25.66. Mr. Dorshetzky, owing a \$5.00 water rate in advance. The water is now shut off from this place. In addition to this there is due this department for water rates \$288.53 and for supplies \$49.42. Most of this was caused by the bad business depression and will probably be paid by the time this report is read.

The amount of water pumped during 1915 is as follows:

January	787,040	gallons
February	864,730	"

Report of Milk Inspector

Plainville, Jan. 27, 1916.

To the Board of Health:

Gentlemen: I herewith submit my report as Inspector of Milk. During the year at various times tests were made with the Babcock Tester, and each test was found up to and above the standard required by law. No complaints have been received as to adulterated or unclean milk, or milk below the standard. During the year exhibitions were given as to clean milk and cream by the State Board of Agriculture, State Dairy Bureau and State Milk Inspectors Association, at Boston, and am pleased to state that George C. Wilkins of Plainville entered the contest again this year and secured fourth premium in Class I. for the Southeastern District, out of 153 entries.

Milk licenses issued, 10.

Amount paid Treasurer, \$5.00.

Respectfully submitted,

JOHN J. EIDEN,
Milk Inspector.

Report of Inspector of Animals

To the Selectmen of Plainville:

Gentlemen: Owing to the foot and mouth disease, the Commission of Animal Industry ordered the general in-

spection of animals stopped 'till further notice.

I have quarantined and caused to be destroyed one horse afflicted with the disease known as glanders.

Two dogs have been quarantined that were bitten by a rabid dog. One was destroyed, the other was released after ninety days.

Two cows that were suffering with tuberculosis were quarantined and destroyed.

One cow that was bitten by a rabid dog was quarantined and released after ninety days.

Respectfully submitted,

CHARLES N. MOORE,

Inspector of Animals.

Report of the Fire Department

To the Honorable Board of Selectmen:

Gentlemen: We respectfully submit to you the report of the Fire Department for the year ending Dec. 31st, 1915.

The Board of Engineers met on the 7th day of May, 1915, and elected officers as follows: Chief, R. P. Rhodes; First Assistant Chief, F. W. Gaddis; Second Assistant Chief, E. W. Pink. During the year there have been but five alarms for fires, three of which were stills for chimney fires and two for buildings, one being the two-tenement house on Bacon Square owned by Mrs. Frank Maxey. The other was a small barn owned by Rev. Arthur Green and situated on Blake's Hill.

In regard to forest fires, the town has been more fortunate than in the past year. We have had ten alarms,

the total cost amounting to \$192.65.

The installing of the fire alarm was completed in May, 1915, and thus far we have but one box installed, that being at the Engine House, but we are in hopes to have more installed about the town in the near future.

R. P. RHODES,
F. W. GADDES,
E. W. PINK,
Board of Engineers.

Report of Trustees of Public Library

There cannot be a very varied report from year to year of an institution like your library, when its career runs along from year to year in a steady progress other than to note the even rate of progress. Increased use of its books is manifest from its steadily increased growth of circulation that has been larger and larger each year.

The period covered by last year's report was for 1914 fiscal year of eleven months. The circulation was 3,997, and for 1913 it was for a twelve month period 3,849. The circulation for 1915 was 5,256 an increase of about thirty-three per cent over that of 1914 and an increase of about forty per cent over that of 1913. Ninety-four cards were issued last year to new readers.

As in previous years the reading of fiction preponderates here as it does in other towns but to a greater extent. The circulation of works other than fiction does not here yet exceed two percent.

There have not been any notable changes in the way of additions to library furnishings other than the reseating

of chairs, rebinding of books and placing a book case in the Shepardville Branch.

The care of books at Shepardville has been under the supervision of Mr. George B. Greenlay and has been without any cost to the town.

The establishing of that station was very much appreciated in that community and a circulation of about 300 resulted with the seventy-five volumes first sent there. Books will be changed from time to time and an effort will be made to keep the quality on a par with the home library.

Such works as we can add to keep pace with the increased demand for educational and technical literature will be made as fast as warranted.

For a community as small as ours we possess in the judgment of many who visit us a remarkably large number of high grade works of reference and in general literature, while the amount and quality of our fiction is well up to some and exceeding that of many of our nearby towns who have more money at their disposal. In this we are enabled by reason of our operating expense being so relatively small. We rank well up in the libraries of the State in the matter of accession in proportion to the funds available.

With the establishment of the Civic League and the Men's Forum, our town has started out to self betterment and it is expected that our library will be no small factor in that direction but ever alert to aid in the upbuilding of a more intelligent and honorable community. Aiding and abetting the library and using its riches will aid others and prosperity will be to all and from all. Laudable ambitions are being already created and growing appetites must be fed and growing ambitions may jointly according to our humble means be fostered here as well as in other places. A few books have been added to the

children's books stationed in the schools with the lower grades.

As the valuation of our town is now more than a million dollars we cannot claim much financial aid from the State according to the recent act whereby the State Library Commission may aid towns of less than a million dollars valuation, but the Commission exists to aid the libraries and will continue to do so in many other ways. In the matter of arranging libraries into groups under local secretaries, we have now been more conveniently grouped with Foxborough, Mansfield, North Attleboro, Norton, Rehoboth, Seekonk and Wrentham. Miss Helen M. Claflin of Attleboro being local Secretary of the group.

We thank the town for its liberal support in the past and modestly assume that you know well the good you continue to render.

About two hundred and seventy-five volumes have been added during the previous year at an expense of \$220.11.

WALTER E. BARDEN,
Town Treasurer.

Auditor's Report

This is to certify that I have carefully examined the books and accounts of the Town Treasurer and find them complete and correct; that I have carefully examined and compared the books of the Collector of Taxes for the years 1914 and 1915 and find the amounts collected and paid the Treasurer and the amounts uncollected agree with the statement of the Town Treasurer. That I have examined the books and compared the vouchers of the Selectmen, Water Commissioners, School Committee, Public Library Trustees, and the Fire Engineers and find them correct and agree with the payments of the Treasurer.

I also find the Books and Records of the Town Clerk complete and correct.

Respectfully submitted,

FRANK E. WHITING,
Auditor.

Report of School Committee

To the Citizens of Plainville:

It was with regret that at the first meeting of the year the Committee was obliged to act on the resignation of Mr. Rufus King, former Chairman, who had had served on the Board so long and faithfully. We feel that the town lost a good and conscientious worker, one who tried to do his best at all times, and no greater praise could be given or asked for. This vancancy was filled by the appointment of Mr. John J. Eiden, and the working of the Board has been harmonious and satisfactory in every way.

We have tried to do our duty in an honest, impartial manner, to give justice to all, to listen to any complaints, and to rectify any wrongs when it was possible to do so.

At the beginning of the year the Committee decided to bring all matters before the full Board and to have no individual work but to have every action approved by all members, and we have found the same very satisfactory.

In the following pages will be found the reports of the Superintendent and teachers, which will explain to the people the exact condition and working of the schools in all departments, together with recommendations for the future advancement of the same.

We wish here to take the opportunity to say that the Committee appreciate all the efforts put forth by both the Superintendent and teachers for the advancement of the work and for their faithful endeavors in the performance of their several duties and to assure them of the hearty support of the Committee at all times.

A great many such needed repairs have been made in and about the buildings. There are many more to follow until we hope to have the whole premises put in first class condition. We are able to do this at a small expense as Mr. Loud is able and willing to do much work that would be costly if performed by outside parties.

We wish to call the attention of the voters to the fact that the High School building must be painted this coming season in order to preserve the same as it is in bad condition. Owing to the reduction in the grant in the Incidental Account, it was not possible to accomplish this the past year, but it cannot be put off any longer.

We would also call attention to the ceilings in the Town Hall building, which are in a dangerous condition, especially in the corridor, where the plastering has fallen in different places. It seems impossible to repair the same so as to make it secure. A portion fell not long ago, striking a man on the head, and had it been a child, serious injury might have resulted, and the town would have been responsible for the same. Your Committee would recommend the placing of steel ceilings in all the rooms, taking one room each year. While this would be an extra expense, it would be a permanent improvement and a financial saving in the long run.

The Committee is pleased to notice that with many the interest in the schools does not cease when they finish their work here, but continues and makes itself manifest in their activity in the Alumni Association. The Association has shown its desire to advance the work in the High School by offering a prize to the winner in a speaking contest to be held soon. This contest will be beneficial to all who participate, whether they win the prize or not, as it will give them experience which will help them in the years to come. We hope that these contests may continue to the benefit of all.

The town barge that conveys the pupils from Blake's Hill district was in very bad condition. While preparing it for painting, it was discovered that the iron work was badly worn. In fact, it is surprising that there was no accident which would have resulted in piling the children in a heap at the foot of some of the hills; but now that it has been given a coat of paint, new cushions and a thorough repairing in all parts, it is in as good condition and as strong, comfortable and safe as possible to make it.

We are sorry to say that the barges are very much crowded but under the circumstances it is the best that can be done.

It was thought at the beginning of the year that it would necessary to take the room now occupied by the library for school purposes, but as that would call for an increase in the teaching force and considerable expense in fitting up the room, arrangements have been made so that the change has been put off for the present, yet the time will soon come, if business improves, when this matter will have to be taken up, as the schools are liable to be crowded.

The Committee decided at the beginning of the year to hold meetings on the second and fourth Wednesdays to approve bills so that the teachers would not be obliged to wait a whole month for their money. The plan seems to give satisfaction as we have heard of no complaint from any teacher.

The Committee will welcome any one to their meetings, who is interested in the schools, and wishes to make any complaint, ask for any information, make any suggestions, or bring forth anything that may be beneficial to the schools in any way, and they will act to the best of their ability in any of these matters.

We feel that the town has been very fortunate in not having any changes in the teaching force for the year, and we

hope that with the combined efforts of both parents and teachers the coming year may be more prolific of good and more noticeable for advancement than any in the past.

We recommend the following appropriations.

COMMENTS ON THE ATTENDANCE TABLE.

The large number of absences and the consequently low percentage of attendance is partially due to the prevalence of contagious diseases, though many of the absences are scattered throughout the year and are due to other causes than illness.

The number of cases of tardiness and dismissals are fewer than those of the previous year in the lower grades, but have increased in the High and Grammar Schools. School officials, teachers and parents should co-operate to remedy this.

The pupil who comes to school late is, often-times, poorly prepared in his lessons and when he takes up his life work failure is his fate, because he is always a little behind time.

To show that the money spent for the support of the public schools is a profitable investment I will quote from the Journal of Education a study made of 500 grammar school boys.

"Of the 500 grammar school boys, 175 left school in the sixth and seventh grades. Of these, one went into business for himself and did well before the end of the ten years; seven learned trades and did well, earning two dollars a day; three were in the reform school; twenty were floaters and failures; 138, or 77 per cent., were getting the same wages at the end of ten years as the first year.

"There were 321 who entered the high school; 200 graduated and 121 left before graduation. Of the 121, there were 23 who went to other schools, so that only 98 really left the high school. Of these, at the end of five years, two are receiving \$100 a month; fifteen receive \$60 a month; four are in business for themselves and successful; four are letter carriers, three truck gardeners, thirteen mechanics, earning from three to four dollars a day. Practically all of the

others are doing well except seven idlers and one failure.

"Of the 200 graduates of the high schools, 151 entered college.

"Of the forty-nine graduates who did not go to college, six studied law, fifteen are successful in business for themselves, eleven are mechanics earning from three to four dollars a day. Only five are not successful.

"Of the 151 who went to college, seven did not complete the course but are successful in business; one is very successful; twenty-four are earning from \$1500 to \$3000, having graduated from the engineering course; fifteen are physicians and eighteen are lawyers, all doing well; three are clergymen; eleven are electricians, one receiving a very large salary; seventeen are successful teachers; four manufacturing; eight in business with their fathers; six in commercial life and successful; one author; twelve with insurance companies; three architects; only seven not successful."

Plainville is again fortunate in having the same teachers as last year with one exception. Miss Ripley resigned in January after a long and successful period of service. Miss Mary J. Cleveland, a graduate of Boston university, was secured for the vacancy.

The Palmer Method of Writing has been introduced and books placed in the hands of each pupil. An expert from the Palmer Company spent one day in Plainville the past term, instructing the pupils and the teachers.

The teachers have been requested to take the free correspondence course offered by the Palmer Company. When the teachers have mastered the system of writing, then, and not till then, can we get satisfactory results from the pupils.

I invite the citizens to inspect the work of the schools at all times, especially the sewing, cooking and carpentering departments, the drawing and music departments. You are

invited to attend the exhibition of all branches of school work which will be held next June.

I recommend that \$100 additional be appropriated for books and supplies, also a larger appropriation for teachers' salaries. Living costs more than formerly. The salaries of teachers have been raised in most towns during the past five years. In Plainville the maximum salaries are the same as they were five years ago. If we would retain the services of faithful teachers, we must pay larger salaries.

In conclusion, I desire to thank the school committee for their co-operation and support, the teachers for their faithful services and the citizens for their generosity and interest in the progress and welfare of the schools.

Respectfully submitted,

IRA A. JENKINS.

Report of the Principal of the High School

Mr. Ira A. Jenkins, Superintendent of Schools:

Dear Sir: I herewith submit my third report as principal of this High School. We began this year with an enrollment of twenty-three boys and twenty-one girls, making a total enrollment of forty-four, two less than last year. Of these we have lost four boys who have gone to work.

Considerable interest has been aroused this year in basketball. The boys have replaced the goals in the school yard and practice almost every day. It is to be regretted that there is no place available for indoor basketball, as the weather is not always favorable for practice out of doors.

This year the alumni, who have been considering the best way to help the school, have offered prizes in gold for both scholarship and public speaking. The public speaking contest, at which the first prize will be awarded, will be held in January and is open to all members of the High School. The scholarship prizes have been assigned, one to the senior having the highest rank for the year, and the other to the undergraduate obtaining the highest rank for the year. It is hoped that these prizes are to be offered each year, as they will doubtless prove an incentive for better work in all lines.

In the acquisition of Miss Cleveland to take the place left vacant by Miss Ripley's resignation the school has indeed been very fortunate. The language department is very well taken care of.

To show the importance of the commercial work in this school, a report from Miss Upton, the commercial teacher, is added to this report.

Respectfully submitted,

CHARLES H. PEASLEY,

REPORT OF THE COMMERCIAL TEACHER.

Mr. C. H. Peasley, Principal of the High School:

Dear Sir. I am glad of this opportunity to tell you of the work we are trying to do in the Commercial Department of our High School. As now organized, we are able to give our students one half year's work in Commercial Arithmetic and Commercial Geography, one year's work in Commercial Law, and two years' work in Bookkeeping, Stenography and Typewriting. Bookkeeping, Stenography and Typewriting are given every year, and Commercial Law, Commercial Geography and Commercial Arithmetic in alternate years. One period a week is given in Commercial English to all junior and senior students.

One of the most encouraging features of the work in this department is the interest which the students take in it. There have been several instances where students have been greatly disappointed to find it impossible to get a third year's work in Bookkeeping. In Commercial Law and Commercial Geography stress is laid upon the reading of current newspapers and magazines, and a considerable amount of material is brought to class from such sources. Much of the information thus furnished is well worth class discussion, and we spend as much time upon it as can be afforded. In Stenography and Typewriting, more emphasis is put upon accuracy than upon speed, though speed is not ignored, and our students are expected to reach a speed of from 35-40 words per minute in Typewriting and 100 words per minute in Stenography. In these last two classes special attention is given to correct form, and the students are asked to criticize from this point of view their own work as well as the actual business letters brought into class for examination and discussion.

Skill and the assumption of responsibility come only with experience and maturity, and so we do not expect to fit our

students for positions where they will be put much upon their own initiative at the beginning, but we can and do train them so they are prepared to do ordinary office work under reasonable supervision.

Respectfully yours,

NATHALIE B. UPTON,
Commercial Teacher.

REPORT OF THE INDUSTRIAL DEPARTMENT

Mr. Ira A. Jenkins, Superintendent of Schools:

Dear Sir: My plan the past year has been to have each grade work alone. Formerly two grades worked together, which necessitated very often both grades doing the same work. Now the first four grades in sewing and the first six grades in basketry and woodworking work independently of one another. Reed basketry, which was discontinued last year as class work, has been introduced again into grades three and four. Also extra instruction outside of regular school hours has been given to many pupils in the grammar and high schools. Whittling in grades five and six is proving very satisfactory as a foundation for woodworking with heavier tools later in the course. The objects made are small and require accuracy in measuring and carefulness in using the knife. Such training helps the boy to become a neater, truer and more honest workman. Five large oblong tables for use in the schoolrooms have been made by the boys of grades seven and eight, and in a few weeks several dressmaking platforms will have been finished. The work just mentioned is group or class work and when completed each pupil will work alone on objects which he may keep. The high school class is finishing the tables which

they began to construct last spring. During the year the high school class has had less than thirty-five full lessons, averaging one hour for each pupil, making less than five days' work in one year. Considering the time allotment the boys deserve commendation for their courage in undertaking such large problems and for succeeding so well.

To the little girls in the primary grades the weekly sewing lesson is a big event. Cross stitching pillow-tops is play to them, yet they are learning to guide the needle and make even stitches just like the outlined pattern, much to their pride and delight.

The fourth grade girls are outlining animals for a quilt which is to be given to the Children's Hospital in Boston. Because of the necessity of stitching these blocks of cloth together lessons on the sewing machines are given in this grade. Doll outfits are being made by the fifth and sixth grades. Grades seven and eight are making kimonos, mid-day blouses, and underwear for themselves. During the Christmas season these girls made many useful and pretty gifts of embroidery, basketry, or raffia. Sewing in the high school is elective. As this is small, each pupil can choose what she wants to make and receive individual help.

The cooking classes are doing the same kind and amount of work done in much larger high schools. The co-operation of the Woman's Club with this department has been very helpful. Last summer under their auspices the girls had a sale of food at the community picnic and thus earned a very attractive set of dishes. At the Christmas tree exercise the club presented the school with two dozen silver spoons. Once a month the cooking classes serve a luncheon to the club which pays for all the materials used. This is very practical for the girls and has been enjoyable as well as an incentive.

Another sewing machine, many new cooking utensils and a fine kitchen cabinet have been added to this department.

For the congenial interest of the school committee and your suggestions and supervision I wish to thank you. The pupils are earnestly working with me to have a large exhibit in the town hall next spring and extend a cordial invitation to parents and friends to support them by visiting and inspecting their work.

Very truly yours,

JENNIE ST. CLAIRE DICKSON.

REPORT OF THE SUPERVISOR OF MUSIC.

Mr. Ira A. Jenkins, Superintendent of Schools:

Dear Sir: Annual reports on the same line of work for a number of consecutive years, must of necessity be alike in the essential principles. Yet, we are endeavoring to devise new ways to interest both pupil and teacher to obtain the best results.

It has generally been conceded by all teachers of music whether they be instrumental or vocal teachers, that time is what perplexes the average pupil. Last year I thought out a system of teaching time somewhat different from any method I have known. We have been using this method and the results have been exceedingly gratifying. The pupils have been able to comprehend time much better than formerly. This way of presenting time is very simple and the children have taken an interest in it. We have time drills which always arouse their interest and I find the pupils, and they are very few, who cannot sing on pitch always ready for these drills and seem to feel that here is work in music that they can do well.

More attention is being given to tone perception in the upper grades. This is an excellent way to make the pupils keen to the accuracy of pitch. We are just beginning to represent on the staff in a given key the combination of time and tune from hearing a musical phrase.

In the eighth grade we have started original melodies. The results will be seen later in the year.

The ability to sing songs with a good tone and clear enunciation is one branch of our work and I am pleased to note that in many of the public entertainments of the town the children are called upon to furnish a part of the entertainment. This is what should be expected of children who receive instruction in music in the public schools.

We are a little handicapped in the High School by not having as much material as is necessary to do good work. So it is planned to have the High School give a concert, the proceeds of which will be used as a fund to purchase music for use in the school throughout the year. Music for Graduation has always been cheerfully furnished but we need music for the regular music period which is new to the pupils in order to sustain interest.

We have a very excellent hymn book containing not only hymns but many well known songs, especially occasional songs which we use at the season of the year to which they are appropriate. These are always enjoyed and well sung. I think all agree that the singing of the High School pupils is exceedingly good and what is better the boys and girls enjoy it.

We are having the children of one school go into another room and sing their songs to those pupils and they in turn do likewise. In this way the pupils will grow less self-conscious and be better prepared to sing in public.

Thanking you, the School Committee and the teachers for hearty co-operation, I am

Yours very truly,

MARTHA C. TISDALE.

REPORT OF THE SUPERVISOR OF DRAWING.

Mr. Ira A. Jenkins, Superintendent of Schools:
Plainville, Mass.

Dear Sir: Looking back over my many years as teacher of drawing in the public schools, I am convinced that it is the Industrial side of Art which we must emphasize. I feel that less time should be spent on correct representation and more on the study of proportion, color, and design, in order that what is done in school may relate to the child's future.

There are few in our community who draw in later life but the many need to know proportion, color and design in every walk in life in order that they may build and furnish their homes, may choose furniture of fine design and color,

more suitable and beautiful clothing, pictures, even calendars and cards.

All of this will react on the community and there will be a demand for more beautiful public buildings and surroundings and manufactured articles will have to measure up to a high standard. For this the public school must furnish the leaven.

In this year's exhibition, I will ask you to look, not so much for correct drawing, as to see if we are showing more appreciation of color, proportion and design.

Respectfully submitted,

MABEL BRIGHAM,

Supervisor of Drawing.

REPORT OF THE ATTENDANCE OFFICER.

Mr. Ira A. Jenkins, Superintendent of Schools:

Dear Sir: The teachers have reported ten cases of absence during the year. All the cases have been investigated with the following results:

Three pupils were absent because of lack of sufficient clothing; two on account of illness; one because of the illness of members of the family; three because of truancy, due in one case to the parents and in two cases to the children themselves.

Respectfully submitted,

HERMON S. J. LOUD.

December 31, 1915.

REPORT OF THE SCHOOL PHYSICIAN.

Mr. Ira A. Jenkins, Superintendent of Schools:

Plainville, Mass.

Dear Sir: It is a pleasure to report that the health of the school body has been unusually good during the term just closed. A few cases of whooping cough and the ordinary ailments of childhood have been the only conditions to interfere with the school attendance which was well maintained.

The present season is one marked by a great increase in cases of severe colds, influenza and pneumonia. It would be wise for the teachers to pay special attention to the health of the children, and withdraw from the school any child suffering from marked head or respiratory irritation until

such conditions have been corrected. This precaution will help markedly to conserve the school attendance during the winter term.

There is a deal of misunderstanding and lack of information regarding school regulations in cases of the contagious and infectious diseases. To obviate this condition, I recommend that the Board of Health of the town in co-operation with the school physician draw up a series of regulations governing such cases, and that the same be published and distributed to the heads of all families having children in the schools. This would, in my judgment, do away with all friction and misunderstanding between parents and school authorities, and make for a fewer number of contagious cases in the schools, and help to limit the spread of any contagious disease in case of any outbreak of it.

Respectfully submitted,

HERBERT LOWELL RICH,
School Physician.

JOHN F. THOMPSON,
WILLIAM E. BLANCHARD,
FRANK E. BARNEY,
Assessors of Plainville.

Warrant for Annual Town Meeting

COMMONWEALTH OF MASSACHUSETTS.

Norfolk, Ss.

To E. Wright Sargent or any of the Constables of the Town of Plainville:

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Plainville qualified to vote in Town affairs to meet in the Town Hall in said Plainville on Monday, the sixth (6) day of March, A. D. 1916, at nine o'clock in the forenoon, then and there to act on the following articles, viz:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To consider and act upon the reports of the Selectmen, Treasurer and the Town Officers.

Art. 3. To choose all necessary Town officers. The following are to be chosen by ballot, viz. Three Selectmen, three Overseers of the Poor, one Assessor for three years, one Treasurer, one Clerk, one Auditor, one Collector of Taxes, one Trustee of Public Library for three years, one Water Commissioner for three years, one Tree Warden, three Constables, one member of the School Committee for three years and also upon the same ballot to vote upon the question, "Shall License be granted for the sale of intoxicating liquors in this Town?"

All officers except as above named are to be chosen for one year.

The polls will be open at 9:30 o'clock A. M. and may close at 2 P. M.

Art. 4. To see how much money the Town will vote to appropriate and raise for

1. The support of schools the current year.
2. For school books and supplies.
3. For school incidentals.
4. For the employment of a Superintendent of Schools.
5. For the employment of a School Physician.
6. For the support of the Public Library.
7. For the payment of the salaries of the different Town officers .
8. For current and incidental expenses for the current year.
9. For the support of the poor and Soldiers' Relief for current year.
10. For highways and bridges the current year and determine how the same shall be expended.
11. For State and Military Aid the current year.
12. For Memorial Day.
13. For the payment of interest the current year.
14. For Fire Department the current year.
15. For lighting the streets the current year.
16. For Water Department incidentals and pumping.
17. For sidewalks.
18. For Board of Health.

Art. 5. To see if the Town will grant the use of the Town Hall free of charge to:—

1. George H. Maintein Post 133, G. A. R., three days.
2. Plainville Fire Department, four evenings.
3. The Alumni Association, two evenings.

4. The Plainville Grange, one evening, the current year.

Art. 6. To see what action the Town will take in regard to the collection of taxes the current year, and fix the compensation of the Collector.

Art. 7. To see if the Town will vote to have the surety of the Collector of Taxes or other Town Officers' Bonds placed with a Fidelity or Guarantee company and appropriate a sufficient sum of money to pay for the same.

Art. 8. To see if the Town will authorize the Collector of Taxes to use all the means of collecting taxes which a Town Treasurer may use when appointed Collector.

Art. 9. To see if the Town will authorize the Treasurer with the approval of the Selectmen to borrow money after January first, 1917, in anticipation of the revenue of 1917.

Art. 10. To see what action the Town will take to raise and appropriate Seventy-five (\$75.00) Dollars for the George Washington Memorial Building, Washington, D. C.
(Request.)

Art. 11. To choose any Committee, hear the report of any Committee and act thereon.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk in conformity to public statutes at or before the time of said meeting.

Given under our hands and seal of the Town of Plainville this tenth day of February, in the year of our Lord, one thousand, nine hundred and sixteen.

[SEAL]

FRED W. NORTHUP,
SYLVESTER SMITH,
EARL B. THOMPSON,
Selectmen of Plainville.
